Scenic flights of Mt Cook & glaciers

Lake Tekapo
& Glentanner Park

WELCOME TO AIR SAFARIS
100% NEW ZEALAND
OWNED & OPERATED

► **Our Company**

Air Safaris has been in operation since 1970; establishing the company's own aerodrome and main base at Lake Tekapo in 1975, and in the early 1990's establishing a West Coast base at Franz Josef.

The company operates a large fleet of varying sized, modern scenic aircraft and has a wealth of experience with 40 years of operation. Senior pilots have decades of flying in the Aoraki Mount Cook region.

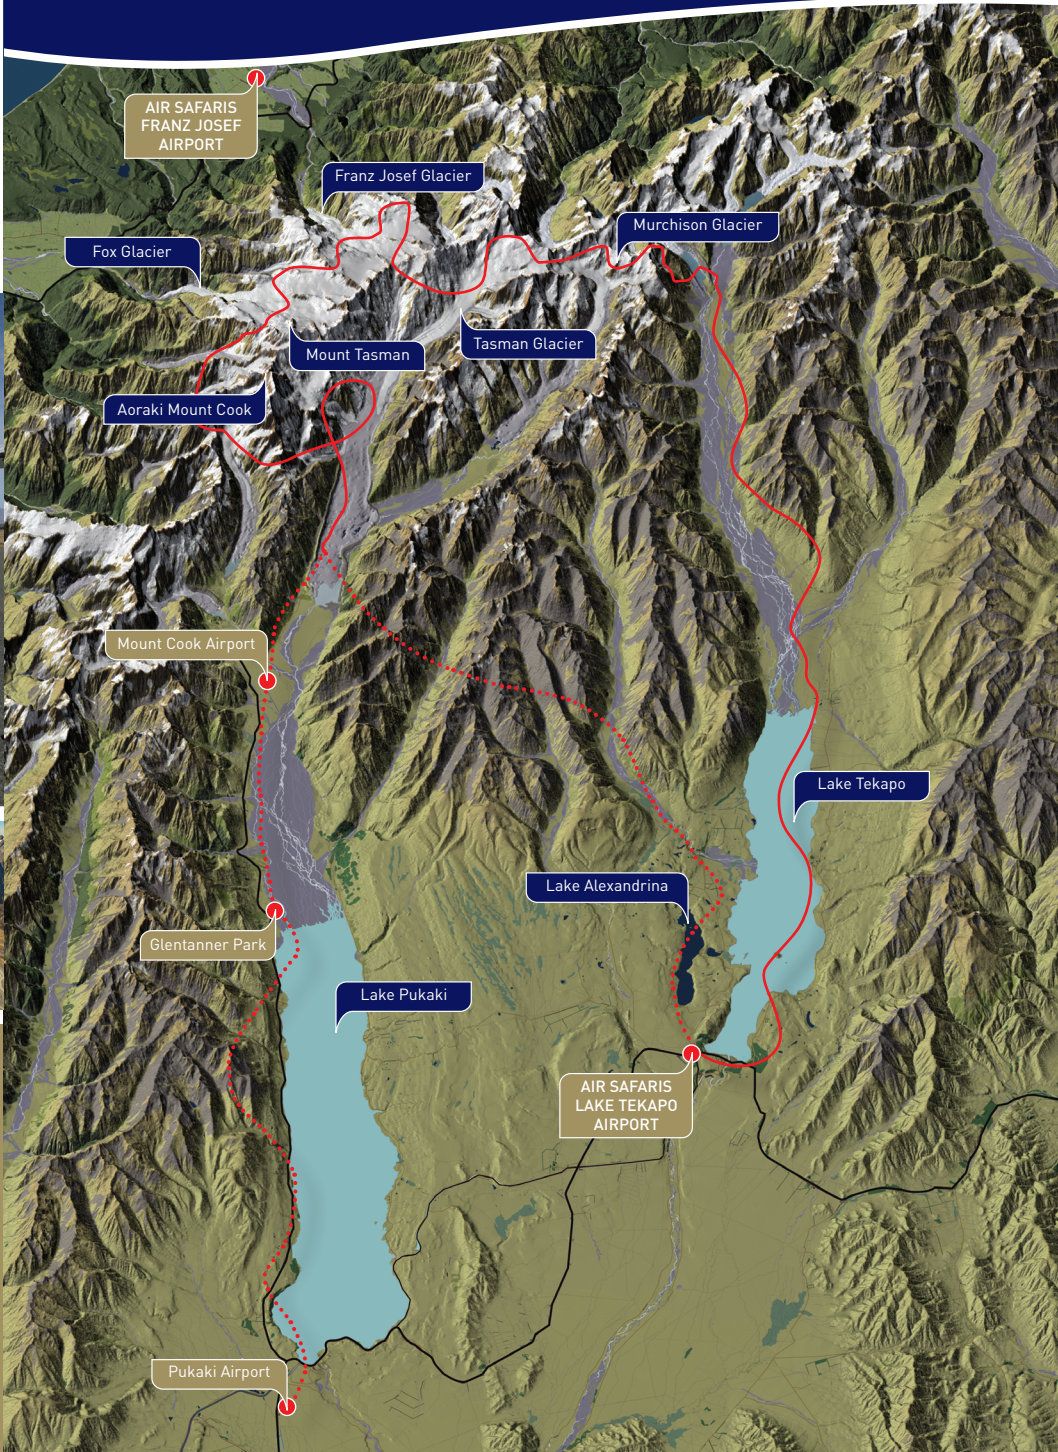

The family owned company stands for value, quality and service.

The large and varied aircraft fleet is ideally suited to flightseeing. Every passenger has a window seat, and all aircraft have 'wings above' to ensure optimum viewing below.

- Pilots provide an informative in-flight commentary and are dedicated to providing an excellent passenger experience.
- Air Safaris has the capacity, flexibility and flight options to suit all groups. Aircraft range from 5 to 15 passengers, and inter-airport options allow coach tour groups to experience the Grand Traverse whilst maintaining travel schedules.

► **The Grand Traverse of Aoraki Mount Cook and the glaciers**

The premier Aoraki Mount Cook flightseeing experience, The Grand Traverse encompasses two World Heritage National Parks in a tour of 200 kms amongst New Zealand's highest mountains and largest glaciers.

- From the golden tussock lands, turquoise glacier lakes and huge glacial valleys of the Mackenzie Basin around Aoraki Mount Cook (3754 metres), Mount Tasman and the Tasman Glacier (29 km long) to the coastal plains of Westland and the vast snowfields and dramatic icefalls of the Fox and Franz Josef glaciers.
- An informative pilot commentary throughout the flight.

Approximately 50 minute flight time
- Allow 1 hour total duration.

Regular departures from Lake Tekapo & Franz Josef. Also operates from Glentanner Park, Mount Cook.

► **Our Culture**

The Air Safaris team is dedicated to the highest safety standards with friendly, personal and professional service.

Our aim is to provide visitors of all ages and physical ability with the opportunity to share with us an unforgettable experience amongst our highest peaks and largest glaciers, in comfort and safety, and with no lasting effect on the environment.

Air Safaris is committed to respecting the values of our National Parks; introducing larger and quieter aircraft to reduce traffic density and minimise noise impact.

The company takes great pride in the quality of the operation and the excellence of the experience it provides.

INTER AIRPORT OPTION:
Experience the Grand Traverse while your coach continues on to meet you at the next airport. Operates between Lake Tekapo, Pukaki (Twizel), Glentanner Park and Mount Cook. Other options and prices available by request.
