GLENORCHY AIR TOURS

Milford & Doubtful Sound Overhead

Fly over endless panoramic views of lakes, forested river valleys, waterfalls, jagged razor backed ridge lines and snow covered peaks along the way to Milford Sound from Queenstown Airport. Once we have reached the West Coast your flight travels further south covering approximately two thirds of the Fiordland National Park, the largest National Park in New Zealand. Along the flight you will discover another eight Fiords along the coast before reaching Doubtful Sound. On the journey back to Queenstown we fly past the Mavora Lakes after which the flight concludes with wonderful views of beautiful Lake Wakatipu.

Duration: 2hrs and 15mins

\$810 per adult

\$495 per child

Mt Cook, Fox Glacier and Franz Josef Glacier Overhead

From Queenstown along the main divide past Lakes Wanaka, Hawea, and Pukaki to the Aoraki Mount Cook National Park your pilot will point out New Zealand's highest mountains, longest glaciers, vast snow fields, beautiful turquoise glacial lakes, intricate braided river systems, glacially formed valleys and towering above it all, at over 12000 feet, Aoraki Mount Cook.

Duration: 2hrs and 30mins

\$655 per adult

\$375 per child

Mt Cook, Fox Glacier and Franz Josef Glacier with a landing at Fox Township

From Queenstown along the main divide past Lakes Wanaka, Hawea, and Pukaki to the Aoraki Mount Cook National Park your pilot will point out New Zealand's highest mountains, longest glaciers, vast snow fields, beautiful turquoise glacial lakes, intricate braided river systems, glacially

formed valleys and towering above it all, at over 12000 feet, Aoraki Mount Cook. After landing at the Fox Glacier airstrip your pilot will accompany you on the short (5 minutes) walk to the township where you can relax for 30 minutes and have a coffee before the return flight back to Queenstown.

Duration: 3hrs
\$685 per adult
\$415 per child

Local Scenic Glacier flight

Explore from the air the dazzling Passchendaele Icefall, the white expanse of the Bonar Glacier and the perfect symmetry of Mt Aspiring, the Southern Alps' most beautiful mountain which rises majestically two miles high. Your return flight passes via the gold mining area of the Skippers Canyon.

GA8 Airvan

Glenorchy Air have been operating with this model aircraft since 2003 and have recently added a third GA8 to our fleet after the great feedback and performance of our first one. The GA8 Airvan takes 7 passengers in comfort with 3 point harnesses, headsets and window seats for all passengers with unimpeded views. The GA8 Airvan's are of a new design that emphasises safety, certified in 2003 by the Australian company Gippsland Aeronautics.

They are powered by a 300 horsepower Lycoming IO-540 6 cylinder engine. They cruise at approximately 130 knots (240km/hr) with a maximum range of 730 nautical miles

CESSNA 172

The Cessna 172 is a well tested and highly successful aircraft, with the first model being released in 1956 and over 60,000 produced up to the current day. We have been operating various models of 172's since the early 1990's. It is a perfect aircraft for smaller passenger loads, with 3 passenger seats. As with our other aircraft, all passengers have a 2 or 3 point harness, headsets to hear the pilots commentary and window seats with unimpeded views of the spectacular scenery.

It is powered by a Lycoming O-360 4 cylinder engine with 180 horsepower, with a cruise speed of approximately 120 knots (222km/hr) and maximum range of 635 nautical miles.
