Heaven Scent
eat ☕ drink ☕ unwind

Heaven Scent began as a modest company in 2003 and now comprises successful corporate, outdoor & events catering businesses, as well the highly successful Heaven Scent artisan coffee shop and Heavens Above catering and events space.

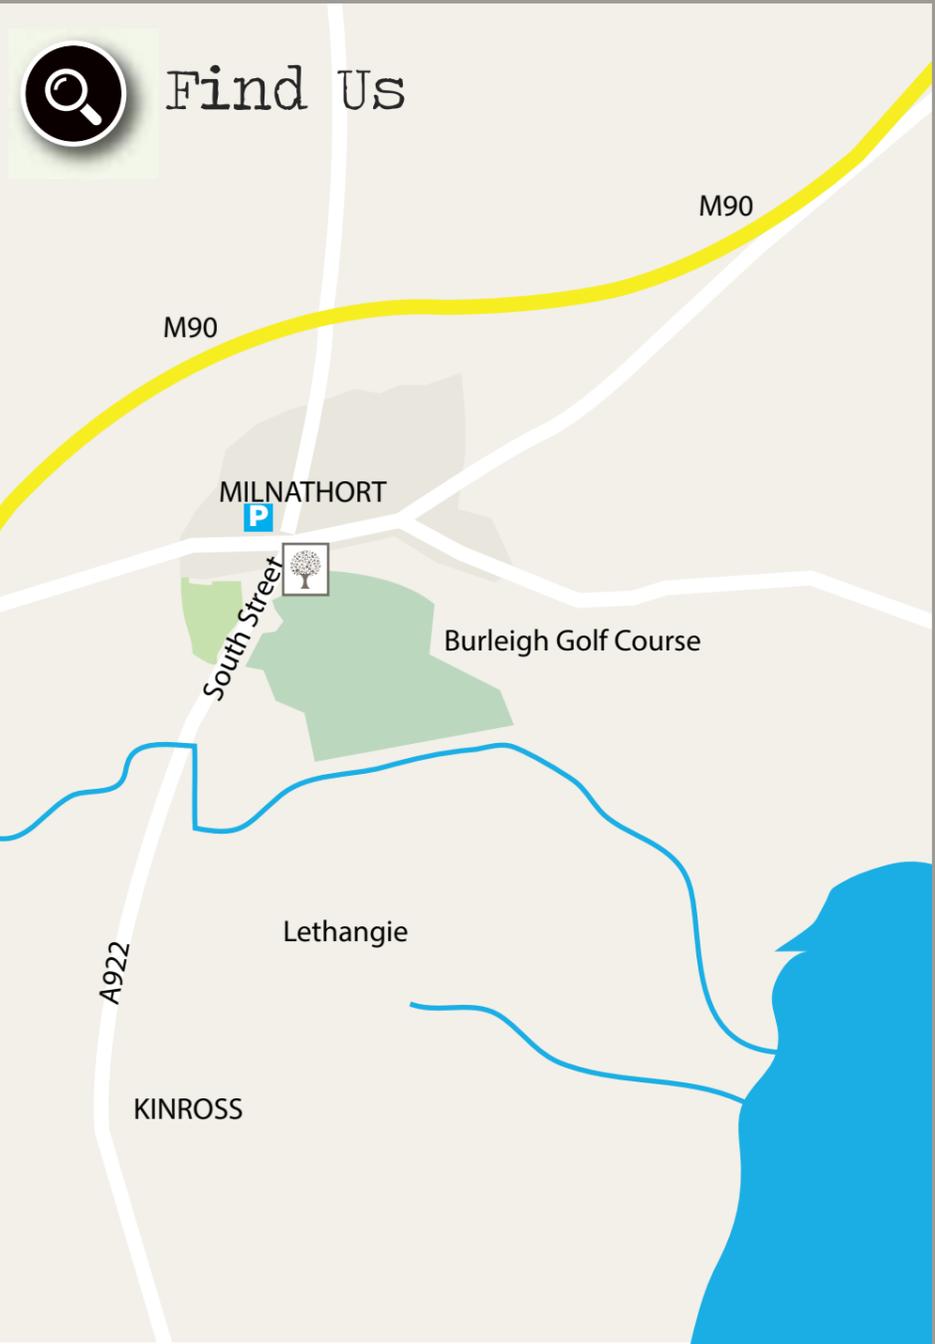

In the summer of 2014, we created Heaven Scent Kitchen, allowing us to use our coffee shop menu to influence our outside catering offering, so that our customers know where their food comes from and who it is prepared by.

Understanding and enjoying food is important to Heaven Scent. The people who join our team share our view, enabling us to frequently update our menus and the dishes we provide. Our dedicated teams take pleasure in their various roles within the company, and every team member goes that extra mile to make sure our customers are always given the top service they deserve.

Our well-proven track record of excellent quality of food and presentation, together with exceptional standards of service, mean that our customers return time and time again.
