

See many of the highlights and secrets that Salt Lake has to offer, in a healthy, active and engaging way: on bicycle!

Places of interest that we visit through Salt Lake Bicycle Tours:

- Temple Square
- Liberty Park
- Gilgal Gardens
- Cathedral of the Madeleine
- City Creek Park
- Memory Grove
- Old Train Stations
- The Downtown Library
- Historic Homes
- The Local Artesian Well
- Centers of today's Art & Culture
- Original historic sites and parks

& many more!

All of our rides are guided. Competent, locally-based guides are selected to provide riders with the most in-depth knowledge, stories, and facts. Rest (and ride) assured that your friendly guide will lead you and yours through our town with the utmost care and respect.

Our rides don't all begin at the same place, nor do we have rigorously set starting times, but rather those specifics are custom fit to the tour, and the individuals who ride with us.

Contact us today to get more info about what your ride could be like!

Come take a bike ride with us around Salt Lake City!

SaltLakeBicycleTours.com

Salt Lake City. raised by wolves.

Founded by Mormons, It's not what you might think!

The Big City Loop Tour

Our most popular tour, on the Big City Loop you'll get a taste of what it's really like in Salt Lake.

Whether this is your first time to Salt Lake City, or you're a repeat visitor who thinks they have it all figured out, the Big City Loop Tour will give you a more full understanding Salt Lake City: its original Native inhabitants, its Mormon founders, its non-Mormon citizens, points of historical political unrest, its serene parks, not to mention its beautiful (and bizarre) examples of public art.

The Big City Loop Tour is approximately 3 hours long, from start to finish. We ride anywhere from about 5-7 miles mostly on flat ground. We make stops on the bikes often for photos, breaks, refreshment, and so your guide can give you information. Most folks describe the level of difficulty of the tour as "between mild and medium".

The Small Lake City Tour

The Small Lake City Tour gives those without a lot of time on their hands a quick peak into Salt Lake's history.

We delve into how and why the City was founded, explore the outstanding foundation (in the literal sense) of knowledge at our Library, and get a sense of just how close you are to the unknown in the wilds of the mountains, when you're right in the heart of downtown Salt Lake!

We relax too, of course.

The Small Lake City Tour is approximately 1-1.5 hours long, from start to finish. We ride about 2-4 miles. We still stop often, for photos and breaks and info. Folks have described the difficulty of this tour as "mild".

The Bikes: Ride with Comfort and Style

Our bikes are authentic, vintage cruiser-style rides. Nice, big fat tires, large comfy seat, coaster brakes (aka back-pedal brakes), and come in many colors. Most are either Schwinn brand or Workman, made in the good ol' US of A.

People love our rides because they love being comfortable during their experience. Naturally just fun to ride, these bikes provide that comfort, as well as some get-up-and-go.
