Olavine Spa
Feel the Mana of the Hawaiian Islands

About Us

In the spirit of creativity and with a nod to cultural blending, **Olavine Spa** is a fusion of the Hawaiian word 'ola', meaning life and health, and the English word, Olivine, a beautiful lava mineral said to have properties of calmness, peacefulness and joy.

The term Olivine is also locally known as Hawaiian diamonds or joyful tears of Madame Pele, the fire goddess. The logo takes the tear-shaped volcanic gems and forms the petals of a flower, blooming upward with life and promise. The interlocking pattern invites harmony, connection, and oneness for both customers and our staff.

Gem and crystal elixirs have been used, revered, and enjoyed for many thousands of years around the world, both for their aesthetic beauty and for the peace, relaxation, and harmony they seem to invoke. At Olavine Spa, we follow this old practice by infusing our massage oils with olivine crystals to share the unique vibratory energy of the Hawaiian Goddess with all our guests.
