

We invite you to see the Best Preserved Meteorite Impact Site on Earth!

Formed almost 50,000 years ago,
the crater is a sight to behold, and is only
30 minutes east of Flagstaff, AZ.

This is a must see for you and your family!

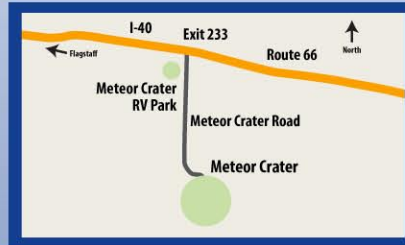

Meteor Crater Visitor's Center welcomes
families, tour groups and individuals.
We are open 7 days a week, 364 days a year.
(Closed on Christmas Day)

Bring Your Camera!

Open Labor Day to
Memorial Day
from 8 a.m. to 5 p.m.

Open Memorial Day to
Labor Day
from 7 a.m. to 7 p.m.

Easy access from I-40 at Exit 233,
Meteor Crater Road

Meteor Crater RV Park

We offer 71 pull-through RV spaces, full hook-ups,
tent sites, gated entry, private restrooms with
showers, laundry, free WIFI, a Mobil gas station,
country store, dog park and ADA accessible facilities.

The park provides outstanding views of the San
Francisco Peaks. Grab a lawn chair and view the
spectacular sunsets.

The best preserved and first proven
meteorite impact site on Planet Earth

EXPERIENCE THE IMPACT! The BEST preserved meteorite impact site on Earth!

The most fascinating and significant meteorite impact site on Earth was created approximately 50,000 years ago when a meteor ended its 500 million year long race through space on a rendezvous course with Earth. Hurling at approximately 26,000 miles per hour, it passed through the Earth's atmosphere and, in a blinding flash, struck the rocky plain with an explosive force greater than twenty million tons of TNT.

Located in Northern Arizona, east of Flagstaff, the meteor's impact left a crater nearly a mile across and more than 550 feet deep, resulting in the excavation of a giant bowl-shaped cavity. A 60 story building could rest on its floor and just reach the crater rim. The topographical terrain of Meteor Crater so closely resembles that of the moon, NASA made it an official training site for the Apollo astronauts.

20 FOOTBALL FIELDS COULD BE PLACED ON THE CRATER FLOOR & MORE THAN 2 MILLION FANS COULD WATCH FROM THE CRATER WALLS!

INTERACTIVE DISCOVERY CENTER

The Meteor Crater Interactive Discovery Center contains many exciting interactive displays and exhibits, making it the most extensive and informative museum of its type on Earth. Visitors will relive the intensity of this impact. 50,000 years ago a fiery giant meteor mass weighing several hundred thousand tons hurtled through space and impacted the Earth. The wide range of exhibits will fascinate and educate every person on the aspects of meteors and their encounters with the Earth.

MORE THAN 25 EXHIBITS, SUCH AS:

Who's Who in the Night Sky: Identifies objects traveling through space. What's the difference between asteroids, comets, meteoroids, meteors and meteorites?

Impact Earth: View the ten youngest and the ten largest craters on Earth and how layers of gas protect the Earth from impacts today.

Create-a-Crater: This exhibit allows you to completely create and customize your own meteor! Then unleash it to form your own crater, you truly get to create and experience the impact!

ATTRACTIONS

80-seat, big screen movie theatre with surround sound, featuring the movie *IMPACT! The Mystery of Meteor Crater*.

- 3 lookout points on the rim
- A guided tour on the rim (weather permitting)
- Astronaut Wall of Fame and NASA test capsule
- Indoor crater viewing area
- Gift Shop and Rock Shop
- Top-rated RV Park
- SUBWAY® restaurant

METEOR CRATER DISCOVERY CENTER WITH EXPLORATION ARTIFACTS & INTERACTIVE DISPLAYS.
