

See NYC through a different lens.

NYC Photo Safari offers photography workshops with Manhattan as both backdrop & classroom.

Explore the best locations of the city while learning how to use your camera and compose great images. Sessions are led by professional working photographers with real industry experience and local expertise.

Starting your visit with NYC Photo Safari will give you new skills to capture iconic photos for the rest of your stay! Sessions are three hours or less and fit easily into any itinerary. Groups are kept small so you'll get hands on instruction. All levels of photographer are welcome, from iPhone users to DSLR enthusiasts.
