

AUCKLAND WHALE & DOLPHIN SAFARI

Experience world-class
wildlife right on
Auckland's doorstep!

World-class wildlife on Auckland's doorstep!

Welcome to the beautiful Hauraki Gulf Marine Park, considered one of the most biologically diverse marine parks in the world and right next to New Zealand's biggest city.

Auckland Whale & Dolphin Safari make it incredibly easy to enjoy this truly magnificent resource, departing daily direct from the Viaduct Harbour in down-town Auckland. For over 15 years our 4.5 hour eco-safari has been providing up-close and personal encounters with whales, dolphins and seabirds as well as being the leading contributor to marine-mammal research in the Hauraki area.

There's no need to travel far to have a world class wildlife encounter – the incredible Hauraki Gulf Marine Park is right on Auckland's doorstep and waiting for you to explore it!

You'll enjoy:

- **4.5 hour eco-cruise** on Auckland's Hauraki Gulf Marine Park
- **GUARANTEED Marine Mammal viewing** or come back again for free!
- **Watch & learn** - Expert commentary and interaction with on-board Marine Researchers.
- **Help make a difference** - Your ticket contributes directly to local conservation efforts.
- **Relaxed & Comfortable** - 65ft luxury Power-cat with fully licensed cafe/bar.

OUR GUARANTEE

In the unlikely event that we don't see any whales or dolphins, we'd love for you to join us again - absolutely FREE

Hauraki Gulf Marine Park. A treasure worth protecting.

Hugging Auckland City is the breathtaking Hauraki Gulf Marine Park, one of the most biologically and geographically diverse marine parks in the world. Part of the Pacific Ocean, the area is visited by an astonishing one third of all marine-mammal species found on earth and is also home to the critically endangered Bryde's Whale. All of which make it a truly world class resource sitting right on Auckland's doorstep.

- More than 23 species of Whale and Dolphin have been spotted in the Gulf. Whale species include Bryde's, Fin, Blue, Southern Right, Sei, False Killer Whales and Humpbacks.
- Dolphins always keep us entertained by playing on the bow wave. Species commonly spotted include the Common Dolphin, Bottlenose and Orca (which are actually part of the Dolphin family)
- See an amazing abundance and diversity of sea-birds including Australasian Gannets, Petrels, Shearwaters, Penguins, White Fronted Terns and many more.
- There's a wealth of other interesting sea life out on the Hauraki Gulf. Every trip is different but this can include Seals, Sharks, Rays and lots of different types of fish.

Where tourism helps conservation

We're incredibly proud of being the leading contributor to marine research in the Hauraki Gulf. Working closely with the Department of Conservation and several universities we successfully combine up-close viewing of marine life with important marine biology research conducted on board. This allows our passengers the chance to encounter, understand and help protect this incredible marine resource.
