

Questions & Answers

How warm will I be? You'll be warm and comfortable even in winter. Everyone gets gloves & boots with twin layered inners, warm helmets & hi-tech body thermal wear to go under your wetsuit to keep you warm. You'll also get a drink of hot chocolate in the cave.

What do I need to bring? All you need is a swim suit (or spare set of underwear) & towel

What does the company supply? We supply you with everything you need including thermal body suits to keep you warm, boots, socks, wetsuits, gloves and helmets with lights

Will I be fit enough? This trip has a choice of options that can suit people down to 5 years. As long as you have enough fitness and agility to do a 30 minute walk you'll be fine. Let us know if you are not sure about being on water as we will give you a life jacket to keep you safe. If in doubt please ask.

Is there any food? You'll get a chocolate bar & hot drink halfway through the trip and back at base you'll have a glass of wine or beer or hot drink & muffin whilst relaxing in the spa. This is not a meal so we recommend that you have a good meal before you come.

What sort of boat will I be in? You're not in a boat at all! You'll have great fun on an inflatable tube, drifting into parts of the river and then into the cave in the dark so you can see the glow-worms. Floating is just one part of the adventure.

How long will it take? Allow about 4 hours by the time you've had your spa & drinks after the trip.

Do I need to book in advance? Yes please. The earlier the better as this ensures we have a place for you
