## Welcome to Heatherslaw

Welcome to the Heatherslaw Light Railway (the most northerly steam railway in England). Travel on our 15" gauge railway, pulled by our steam locomotives "Buntie" and "Lady Augusta" or our diesel engine "Binky" between Heatherslaw and Etal Castle, a return journey of 6.4km. Our rolling stock offers a choice of fully enclosed or partly glazed coaches to keep you dry, even on the wettest days.

The railway runs along the banks of the River Till giving you wonderful views of the Northumberland countryside and Cheviot Hills. Swans, herons, ducks and the occasional otter are some of the many residents you may spot along the way.

Why not break up your journey at Etal and visit Etal Castle, or walk the short distance up to picturesque Etal Village and visit the Lavender Tearoom for refreshments before catching the next train back to Heatherslaw.

On returning to Heatherslaw Station you are welcome to browse in the Ticket Office Gift Shop or visit the Railway Room to view our "G" gauge model railway.

A short walk across the bridge takes you to Ford and Etal Visitor Centre and the working watermill, Heatherslaw Mill. The Heatherslaw Tearoom is also open to provide refreshments.

## NEW PLANS 2017

We are in the process of upgrading another one of our spare coaches. The bogies have been completely overhauled with new bearings and wheel sets. We are hoping to complete the bodywork during the 2017 season and after testing, it will be introduced into the main service stock. This coach will be in blue livery to match "Buntie".

Throughout the winter we have continued the process of re-laying track onto fresh ballast and new sleepers. See if you can spot the sections we have completed!

"Clive" will be given a facelift over the next year, and the plans are in the process of being drawn up. Regular updates can be found on Facebook.
