

WE ARE A VOLUNTEER ENVIRONMENTAL GROUP WITH MODEL RAILWAYS

MEET NEW FRIENDS - VOLUNTEERS WELCOMED

FRIENDS OF RAILWORLD

Over the last century habitat loss has resulted in the complete disappearance of 150 species from Britain! Mainly due to damage, or loss of their natural environment.

Thirty five years ago, volunteers purchased the land, raised their own funds and with the help of companies, groups and individuals, created an intriguing, exciting place for people to explore and learn about our Natural World.

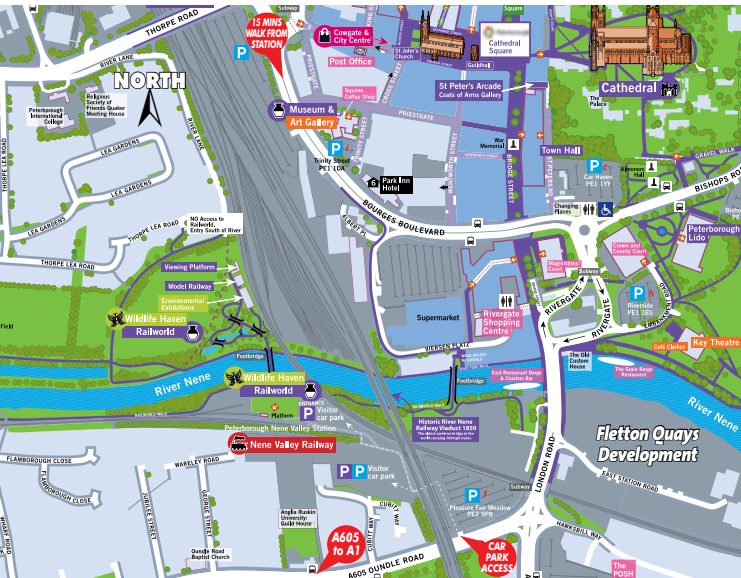

Volunteering provides a range of opportunities for people to help protect and care for our natural world, gain new skills, meet new friends, maybe help operate our model railway or simply enjoy a rewarding time outdoors!

Our aim has always been to 'Entertain and Educate about Our World' But we also have the added interest of 2,000 sq ft of Model Railways, again created by our amazingly diverse and talented volunteers!

RTV 31 PROJECT

Sir Christopher Cockerell invented the hovercraft. Professor Eric Laithwaite advanced the linear motor concept. In the late 1960s a development centre and test track was built in Earith, Cambridgeshire. During testing Research Test Vehicle 31 reached 107mph – RTV 31 – the first train without wheels! The British Pioneer!
