THE FOUNDATIONS

Both foundations are recognized of pure public interest & state approved ngo

The Fair Future Foundation

Alex, over these many years in South-East Asia, felt the profound need to contribute to a better world, mainly in terms of Access to Free Health Care for People in Need. The Fair Future Foundation was established by Alex & Sarah in **2006**.

In **2006**, the Bali Sari Foundation was created in order to develop the solidarity and philanthropy actions of the Swiss Foundation, and both of them:

- Care and treat tens of thousands poor, sick, disable, disadvantaged human beings per year. In 2013 **18'000** - 2014 **22'000** - 2015 **29'000** and in 2016 our **NEW CHILDREN'S HOSPITAL** in Anjingan.
- Improve the daily Life of the local community in suffering;
- Develop Major projects in terms of access to free medical care;
- Build and operate its own Pediatric Hospital to treat thousands of children annually.

Those engagements are mainly financed by the Fair Warung Balé, the Social «Resto», created by Alex & Eka in 2011.

THE FAIR WARUNG BALÉ

for a much better world, a unique experience

One of the best restaurants in Ubud
The Bali Bible

The only one "restaurant" worldwide, which supports and funds a Comprehensive & Massive Public Health & Medical Care Program, including Medical Centers & a Large Medical team, consisting of more than Fifteen Health Professionals, for more than **29,000** needy people per year.

The Fair Warung Balé allows us to **SUPPORT** our Foundation, while employing young adults who have had or have social, medical or economic difficulties.

By coming **SHARING** a Fair meal with us, you effectively participate in the medical treatment of tens of thousands needy people per year and you also participate to build the history of our new children's hospital in Anjingan.

Our Social Restaurant provides **70%** of the whole foundation funds... and is self-sufficient, and totally magic.

GIVES A SENSE TO YOUR MEAL
GIVES A CHANCE TO PEOPLE IN NEED

#onemealforfreehealthcare fair warung balé

A restaurant and a Social Center

and a new economic model

Who can describe a restaurant better than the clients?

This restaurant has wonderful food at a very reasonable cost. It is very popular and making a reservation is important. This restaurant is the primary source of funds for a non-profit health care organization that serves those in Indonesia that are unable to afford health care. Provides jobs for lots of local young people. The Fair Foundation is working to build a Pediatric Hospital. We loved the fresh fish dishes and Kare (like curry) dishes. Portions are large and so flavorful. It is a pure win-win. I simply say: Congratulations to all youth there. What you all accomplish with us, is simply unique and extraordinary.»

Michael, from Australia.

What about those who work here?

«I'm very happy to work there because the Fair Warung Bale is like a house with many angels. I learned a lot there, learned how to share with others, and greet people with a smile.

I never feel tired with the routine because there is always happiness there, working like a hobby and that is why we are there. And the purpose of all of this is just magic also... I'm very proud to be a part of the foundation for sure.»

Pande, one of the Angels.

THE FAIR BALI SARI CLINIC

for all those who are in need, for free...

WHAT IS THE BALI SARI CLINIC?

Free health & Medical care for more than

80%

of our patients

→ Health & Medical Care in our Medical Centers are **FREE** for local people **physically, mentally, financially** in need or **emotionally** distress. It's representing almost **30,000** patients that the foundation care for each year.

→ We come to an alarming observation, as **increasingly** people become **poorer** and most of them **suffer** from malnutrition.

→ When foreigners come to the Foundation's clinic, they pay a **100%** **fair price**, that allows **4** to **5** free medical consultations for those in need.

FREE HOME CARE IN THE VILLAGE

A young boy with dark hair and a slight smile is holding a white form in front of his chest. The form is from 'yayasan balarasi' and contains handwritten information. The boy is wearing a blue shirt. The background is slightly blurred, showing an indoor setting with shelves and a red balloon.

FREE PUBLIC HEALTH & MEDICAL CARE

The Fair Future Foundation cares & treats children, babies, adolescents, adults, elderly people, families and local communities all across Bali and on the islands located around.

free health & medical care for people in need

THE NEW HOSPITAL

A project for humanity

The foundation has decided to create a new Pediatric Hospital, funded by the Bali Sari Foundation and the Swiss Sate Approved Fair Future Foundation, featuring Indonesian State, and provincial and regional authorities.

This hospital is located in **Anjingan**, East Bali and will open in September 2016 at least. In this region of the Island, access to healthcare is very limited, this new hospital will be the solution for those in need and **THOUSANDS** of kids per year.

THE ACTORS OF THE PROJECT

This structure is public, and some support actors are taking part in the project: as University Hospitals located in Switzerland, Australia, the USA... and all those who want to be a part of this adventure, built for human and humanity.

WHO IS IT DEDICATED TO?

In this region of Bali, and in Indonesia, thousands of children don't have access to medical care. The new structure will be much more than a hospital : It will be dedicated to all those children, from **2** to **16**, who don't have access to a decent healthcare.

Within the framework of its pediatric mission, this structure is built to welcome almost **1'000** children per year, so that they can undergo medical and surgical treatments.

This health center will also accomodate almost **12'000** visits per year, including medical consultations, special treatments, emergencies, even birth, etc...

THE FOUNDATION IS BUILDING A NEW PEDIATRIC HOSPITAL

TO HELP AND CURE HUNDREDS INDONESIAN KIDS PER YEAR

A FAIR PARTNERSHIP

With a social impact

This Dutch Company is a social business created in Bali in 2014. Its mission is to bring simple, eco-friendly and life changing technologies like water filters and solar lamps in **Bali** and **East Indonesia**. The **Nazava Water** Filter has been launched: A safe, simple, affordable and sustainable household water purification solution.

WHY?

As access to **health & medical** care, everybody should have access to safe and affordable drinking water. That is why the **Fair Future Foundation** decided to support Social Impact's project.

Worldwide → every **15** seconds, a child dies from poor water quality.

Indonesia, Bali → nearly **1/4** of all deaths among children **UNDER 5** are caused by Diarrheal disease.

HOW DOES IT WORK?

The main water filters of Nazava consist of two plastic food-grade containers made of polypropylène (PP5) and are equipped with a simple filter candle, which is made of ceramic, mixed with colloidal silver and filled with activated carbon. A simple way to provide **2** to **3** liters of drinkable water per hour, for more than one year.

This partnership will allow people to enjoy drinkable water. The goal is to first provide the new hospital, schools and villages. And then every family...

WHAT ARE THE BENEFITS?

Less time consuming

9 times cheaper than the water gallon

Drinkable water always available

Reduces diseases

Reduces CO2 emission

Reduces deforestation

Reduces the use of plastic bottles

OUR DAILY WORK

a unique concept worldwide

TOGETHER, WE MAKE A BIG DIFFERENCE

We give back, we share
