## PREMIUM ESCAPE EXPERIENCE

Escape Reality is an interactive and immersive escape experience where players are trapped in a room and must use logic and teamwork to find their way out in 60 minutes.

The experience is accessible to a wide range of players of different ages and gender. Quite often, successful teams are made up of players with a large mixture of different experiences, knowledge and physical abilities.

The experience is highly competitive, creating the need for players to interact and engage fully with other team members.

Offering an alternative form of entertainment, our Escape Reality experience is truly unique compared to the usual activities such as bowling and go-karting.

It is all about having fun and working together as a team to solve different scenarios and challenges.

## FIVE UNIQUE EXPERIENCES

We have 5 world class rooms that are unique and exciting.

Can you escape a maximum high-security prison in Alcatraz? Or solve a gruesome series of murders and catch a criminal in Murder in Whitechapel?

Try to escape from the alternative realm of Jungala after being engulfed through a board game.

For the daredevils, horror-movie inspired Enigmista and Stephen King's horror, Misery will test your ability to escape from the clutches of deranged individuals.
