BREWERS - RESTAURANT OWNERS

IT'S AMAZING WHAT OUR BREWER CAN DO WITH A GLASS OF WATER

Yes, beer begins with water. Then a selection of malted barley that is soaked using our own method.

Then, by combining different varieties of hops and malts, without forgetting the yeast or, sometimes, fruit or spices, our recipes are developed to bring your taste buds the greatest pleasure. Bitterness, fruity, spicy, dark, blonde, white, amber... Each has its own character while always retaining a balance of flavours and aromas

it a pleasantly

This is not the place to reveal our Brewers' secrets, since a glass of beer also contains mystery and know-how. A little bit of magic lets us produce exclusive beers that you won't find anywhere else. You also have another challenge; try a little patience before you raise the glass to your lips.

Our conditioning barrels are aptly named. They are nearby in this restaurant, which means that the connection to our beer pumps is as close as possible.

What about the result? It's up to you to decide.

give us the dark colour

and chocolate, almost coffee taste. our restaurant in Lille.

NEWS FROM THE WORLD OF BEER

The wagon train has pulled in and the dog has got a drink.

There is a steak-flavoured beer for dogs. Its name (Kwispelbier) means "the beer that makes tails wag". Happily alcohol-free, it means that next time you're enjoying a beer at home while watching football, Fido will be able to join you on the sofa. As for you, you would probably prefer one of our beers available to take

Have you heard of the Beer Can Regatta?

It isn't an Olympic sport yet, but you never know! Every year, thousands of "athletes" gather for the Beer Can Regatta in Darwin, in northern Australia. The principle is simple: during the year each team drinks beer to collect empty cans which they then use to build a canoe or a raft that floats. Naturally, the vessels sink gloriously after 25 metres, to the delight of the spectators. Then the only thing left is to drink more beer for an entire year to try and get a crown at next year's regatta.

A beer tsunami.

When you live near a brewery, you should really know how to swim. In 1814, in London, wooden vats burst one after the other, swamping the surroundings with 1.5 million litres of beer. Unfortunately, at the time Londoners often lived in basements. 9 people drank beer for the last time as a result of this flood.

Choice of accompaniment: Fries, mashed potatoes, new potatoes sautéed with Guérande sea salt, cabbage cooked with Riesling, pasta, green beans, ratatouille, rice, salad Choice of sauces: Barbecue, wine-grower's Béarnaise, citrus beurre blanc, shallot, pepper, Maroilles, whole-grain mustard, tartare, cocktail.

STARTERS

	4,90€
