OUT

THE GAME

Welcome to HintHunt!
The original live escape game

Today there are two types of people on Earth:
The ones who rave about mind-bending live escape
games and the ones who have never heard of them.

Okay, stop. What's going on?
It is very tricky to describe the concept of a Live Escape
Game at first, but once you tried it, the genre is obvious!
HintHunt provides you with an unforgettable
experience when you and your friends solve puzzles,
open locks in a fast paced hour where you will laugh a
lot.

Our games are exciting yet challenging and have been
perfectly designed for groups of 3-5 people regardless
of knowledge or any specific skills.

Players are locked in our themed room and must put
together the hidden clues they find to overcome various
mental tasks they encounter in order to escape the room
before the 60 minute timer hits 0!

EXHILARATING BRAIN TRAINING ACTIVITY

FAQ

HintHunt Room Size

Regarding the size of the rooms - we'd like to keep the mystery around it, but none of them are too tiny or too big (imagine around 10 square metres with minimal furniture). Claustrophobic people have been playing HintHunt without a problem but certainly we can instantly help, should any kind of emergency arise

Multiple identical rooms

Are available for each theme, accommodating up to 25 people at a time.

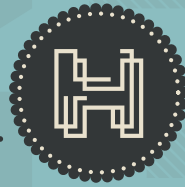

Team sizes

A minimum of 3 and a maximum of 5 people can play in each room. We have tested both ends of these limits - in case of duos (2 people) the game might become too complicated to enjoy and above 5 the place may become a little crowded, so please stick to the advised team sizes of 3, 4 or 5.

Gift vouchers

HintHunt offers gift certificates to teams of 3, 4 or 5 people. Gift cards can be purchased online through our website, please visit: www.hinhunt.com/london

The Lucky Recipient could book any of our games at any available time within 6 months stating only the Voucher number displayed. They can even upgrade the team size by paying only the difference.
