Visit anytime of year

These packages are available throughout the year – choose your own time to come. The coastal strip of Exmoor where we are located is one of the warmest and driest parts of the UK.

January – March: The later winter months are the best time of the year to see the wildlife including the famous Exmoor Red Deer and the Exmoor Ponies. With little foliage on the trees you can see right down into the delightful valleys. You will catch the first of the early flowers, from late January through February the snowdrops in Exmoor's secret snowdrop valley are a spectacular sight.

April – June: Spring is a very popular time for walkers as the weather is not too hot. Daffodils are the first spring flowers to bloom and all the trees and hedgerows are coming into leaf. New born lambs are in the fields, and the woods full of bird song.

July – September: High Summer is a good time to visit for those who enjoy the warmer climate. All the local visitor attractions are open, you can enjoy a visit to Dunster Castle and Gardens or take a steam train ride on the West Somerset Railway, both of which are within easy walking distance.

October – December: At this time of year you can enjoy the wonderful autumn tints in the trees before the leaves fall. This season is probably the best time of year for photographs and usually the weather is very mild.

Leaders

The leaders of our special interest holidays are all experts in their field. Many of them have been helping us provide interesting and rewarding breaks for several years. Participants leave with additional knowledge and good memories and many return year after year.

Dunster Castle

Transport

Free Time

All our activity breaks give you free time to enjoy Dunster, Exmoor and the surrounding countryside. You will be given an itinerary for your chosen break, showing the times the activity takes place.
