Advanced Courses & Clinics

Advanced courses are structured to the individual to help progress their skills to the next level. If you are looking to improve, Big Blue can help with all aspects of kitesurfing from going upwind and performing your first jumps; to kite loops and handlepasses.

Newgale is one of the best beaches in the UK for kitesurfing in waves. Big Blue offers waveriding courses for those looking to tackle waves for the first time, gybe directional boards, link turns on the wave or develop an individual style!

One-to-one tuition, group and club packages are available. Big Blue can also provide safety boat cover for kitesurfing in off-shore winds.

Stand Up Paddleboarding

Paddleboarding is a growing sport in the UK which involves a large surfboard and a long single bladed paddle. Standing up the whole time, paddleboarding is a great way to explore the coastline and estuaries whilst developing core fitness and balance.

Paddleboarding also offers an alternative way to surf waves. The rider can access waves which are further away, catch them earlier and ride them for longer.

Zap-Cat Coasteering

Coasteering is a combination of swimming, climbing and scrambling along the base of the cliffs. Using the Zap-Cat Big Blue will transport you to a stunning stretch of the coastline and guide you through its many gullies and caves. How much or how little you take part is completely up to you; all confidence levels are catered for from the 15 ft jumps to swimming calmly through incredible rock formations. It is a great opportunity to see the coastline from a completely different perspective and one which everyone can enjoy.

Each Coasteer is approximately 2 hours long.

‘Absolutely incredible. I’ve never laughed so much in my life!’

- Clare Rees, Abersoch

Surfing

The essential way to pick up the basics and save a lot of frustration whilst learning to surf is to take part in surfing lessons whether one-on-one or as part of a group. Together we will help you master the basics and practice getting to grips with all aspects of the sport from paddling to standing up and surfing the waves. For those who want a little more, our comprehensive Improver lessons will teach you surf forecasting, location choice, wave theory and progressive coaching.

Zap-Cat Powerboating Courses & Experiences

Big Blue offers a variety of Zap Cat powerboat tasters and courses. A Zap Cat is a surf rescue inflatable boat which offers incredible stability, power and manouverability.

Our Experience packages offer a great way of exploring the rugged cliffs of St. Brides Bay and the sleepy wooded creeks of the Cleddau estuary. The great thing about the Zap Cat is that you can choose between a calm sightseeing tour or an adrenalin inducing, white knuckle ride that will leave you grinning from ear to ear.

The Royal Yachting Association Powerboat Courses provide essential boat handling and coastal awareness resulting in a qualification which is highly recommended for boat owners and those wanting to increase their knowledge of the marine environment.

Wakeboarding

Wakeboarding is a great way of developing board skills for kitesurfing, especially if the wind does not blow. Big Blue can teach beginners to wakeboard using kitesurfing boards behind the Zap Cat. It is not a competition wakeboard boat so experts need not apply but for those who have never tried it then we can teach you how to get up, improve your stance and develop carving skills.
