Into the hills

Join us for spectacular touring around the Cambrian Mountains. Your guide has extensive knowledge of the local area and will try to adjust every tour to your interest; whether that is photography, flora and fauna, local history or maybe you just want to enjoy the fantastic views wherever they may lead you.

Follow in the footsteps of artists, poets, writers and the aristocracy, who came to marvel at the rugged landscape and 'hunt' out the best spots for a painting. At a time when it was fashionable to take a tour of Europe, Aberystwyth was becoming a genteel seaside resort and Mid Wales was at the heart of the Picturesque movement.

Provisions

Picnic hampers, hot drinks, bird and wildlife identification guides, binoculars, quizzes, interpretation of geology and landscape features and gold panning equipment can all be provided.
